This year we are part of an elite club of just eight high school in Staffordshire that have consistently increased the number of students achieving 5 or more GCSEs at grade A* - C over the past 5 years. This is an outstanding achievement for the children.

We would like to thank all staff, students and parents for their parts in this improvement of standards of education. Our sixth form numbers are high following this success and we look forward to sharing further success stories throughout our next academic year.
